

HOMES IN LIVERPOOL

GARSTON HOUSE

Garston House is a large six-bedroom house located in a residential area near to the centre of Liverpool. The house provides accommodation for up to four young people, each with a single room of their own.

The dedicated and experienced staff team offers intensive support to young people aged 10-18 who are behaviourally challenging and emotionally vulnerable.

Each young person has their own key worker who meets with them on a regular basis and works closely with the in-house clinician.

A psychological assessment is completed on admission by the clinician who also provides direct therapeutic support to the young people, and works with the staff team to develop, monitor and review behaviour management strategies.

We deliver individual education programmes in our Ofsted-registered school and our dedicated teachers promote educational inclusion and personal achievement, and ensure all statutory requirements are met.

The education programme is delivered by qualified teachers working in partnership with residential care workers, and aims to ensure educational inclusion is a priority and statutory requirements are met.

Young people are encouraged to be pro-active in the running of the home and to be actively involved in making choices and taking part in decision-making processes.

MANAGER: VICKY MORAN

I have worked in social care since 1987 and worked for 13 years providing palliative care at a hospice.

I then came to work in childcare as a residential care worker and progressed to team leader and assistant manager of a six-bedded children's home.

I hold an RMA and have undertaken all foundation and various other training.

My hobbies are listening to music, going to the cinema, watching football and assisting on day trips for children in foster care. I also have my own young family.
