

HOMES IN STAFFORDSHIRE

THE ARCHES

The Arches is a large detached house with a good sized garden located in residential area near to the centre of Chase Terrace. The house provides residential accommodation for up to two young people, each with a single room of their own.

The dedicated and experienced staff team offers intensive support to young people aged 10-18 who are behaviourally challenging and emotionally vulnerable.

Each young person has their own key worker who meets with them on a regular basis and works closely with the in-house clinician.

A psychological assessment is completed on admission by the clinician who also provides direct therapeutic support to the young people, and works with the staff team to develop, monitor and review behaviour management strategies.

We deliver individual education programmes in our Ofsted-registered school and our dedicated teachers promote educational inclusion and personal achievement, and ensure all statutory requirements are met.

The education programme is delivered by qualified teachers working in partnership with residential care workers, and aims to ensure educational inclusion is a priority and statutory requirements are met.

Young people are encouraged to be pro-active in the running of the home and to be actively involved in making choices and taking part in decision-making processes.

MANAGER: SUE RILEY

I have worked in a residential setting for over twenty years and have worked with young people with emotional and behavioural problems, learning disabilities and mental health issues who display challenging and complex behaviours. I have gained experience in many other care settings but I really enjoy working with young people in a residential setting.

Over the twenty years I have seen many positive changes to the care that is provided to young people that have influenced my own values and beliefs. I feel strongly that everyone deserves to be positively valued and the young people in our care should be given unconditional positive regard.

I completed the CCETSW in social care and have a certificate in Health and Social Care from the Open University. I have recently completed my NVQ 4 in Management and have been enrolled on the LMCS.

My hobbies are reading, music, cinema, walking and swimming.
