Appendix 6: Online Monitoring Software	16
Horizon and Dudley Port, through EPX, use an online monitoring software, Securly Filter.	16

1. Aims

Our school aims to:

- Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
- Identify and support groups of pupils that are potentially at greater risk of harm online than others
- Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology, including mobile and smart technology (which we refer to as 'mobile phones')
- Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

The 4 key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

- **Content** – being exposed to illegal, inappropriate or harmful content, such as pornography, fake news, racism, misogyny, self-harm, suicide, antisemitism, radicalisation and extremism
- **Contact** – being subjected to harmful online interaction with other users, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes
- **Conduct** – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and

- **Commerce** – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

2. Legislation and guidance

This policy is based on the Department for Education's (DfE's) statutory safeguarding guidance, [Keeping Children Safe in Education](#), and its advice for schools on:

- [Teaching online safety in schools](#)
- [Preventing and tackling bullying](#) and [cyber-bullying: advice for headteachers and school staff](#)
- [Relationships and sex education](#)
- [Searching, screening and confiscation](#)

It also refers to the DfE's guidance on [protecting children from radicalisation](#).

It reflects existing legislation, including but not limited to the [Education Act 1996](#) (as amended), the [Education and Inspections Act 2006](#) and the [Equality Act 2010](#). In addition, it reflects the [Education Act 2011](#), which has given teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

3. Roles and responsibilities

3.1 The proprietor

The proprietor has overall responsibility for monitoring this policy and holding the headteacher to account for its implementation.

The proprietor will make sure all staff undergo online safety training as part of child protection and safeguarding training, and ensure staff understand their expectations, roles and responsibilities around filtering and monitoring.

The proprietor will also make sure all staff receive regular online safety updates (via email, e-bulletins and staff meetings), as required and at least annually, to ensure they are continually provided with the relevant skills and knowledge to effectively safeguard children.

The proprietor will co-ordinate regular meetings with appropriate staff to discuss online safety, requirements for training, and monitor online safety logs as provided by the designated safeguarding lead (DSL).

The proprietor should ensure children are taught how to keep themselves and others safe, including keeping safe online.

The proprietor must ensure the school has appropriate filtering and monitoring systems in place on school devices and school networks and will regularly review their effectiveness. The proprietor will review the DfE filtering and monitoring standards, and discuss with IT staff and service providers what needs to be done to support the school in meeting the standards, which include:

- Identifying and assigning roles and responsibilities to manage filtering and monitoring systems;
- Reviewing filtering and monitoring provisions at least annually;
- Blocking harmful and inappropriate content without unreasonably impacting teaching and learning;
- Having effective monitoring strategies in place that meet their safeguarding needs.

The proprietor will:

- Ensure they have read and understand this policy
- Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet (appendix 3)
- Ensure that online safety is a running and interrelated theme while devising and implementing their whole-school or college approach to safeguarding and related policies and/or procedures

- Ensure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with special educational needs and/or disabilities (SEND). This is because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable

3.2 The headteacher

The headteacher is responsible for ensuring that staff understand this policy, and that it is being implemented consistently throughout the school.

3.3 The designated safeguarding lead (DSL)

Details of the school's designated safeguarding lead (DSL) are set out in our child protection and safeguarding policy, as well as relevant job descriptions.

The DSL takes lead responsibility for online safety in school, in particular:

- Supporting the headteacher in ensuring that staff understand this policy and that it is being implemented consistently throughout the school
- Working with the headteacher and governing board to review this policy annually and ensure the procedures and implementation are updated and reviewed regularly
- Taking the lead on understanding the filtering and monitoring systems and processes in place on school devices and school networks
- Working with the ICT manager to make sure the appropriate systems and processes are in place
- Working with the headteacher, ICT manager and other staff, as necessary, to address any online safety issues or incidents
- Managing all online safety issues and incidents in line with the school's child protection policy
- Ensuring that any online safety incidents are logged (see appendix 5) and dealt with appropriately in line with this policy
- Ensuring that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school behaviour policy
- Updating and delivering staff training on online safety (appendix 4 contains a self-audit for staff on online safety training needs)
- Liaising with other agencies and/or external services if necessary
- Providing regular reports on online safety in school to the headteacher and/or governing board
- Undertaking annual risk assessments that consider and reflect the risks children face
- Providing regular safeguarding and child protection updates, including online safety, to all staff, at least annually, in order to continue to provide them with relevant skills and knowledge to safeguard effectively

This list is not intended to be exhaustive.

3.4 The ICT company EPX and Group ICT Manager

The ICT company EPX and the Group ICT Manager is responsible for:

- Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems on school devices and school networks, which are reviewed and updated at least annually to assess effectiveness and ensure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material
- Ensuring that the school's ICT systems are secure and protected against viruses and malware, and that such safety mechanisms are updated regularly
- Conducting a full security check and monitoring the school's ICT systems on an ongoing basis

- Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files

The SLT are responsible for:

- Ensuring that any online safety incidents are logged (see appendix 5) and dealt with appropriately in line with this policy
- Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy

This list is not intended to be exhaustive.

3.5 All staff and volunteers

All staff, including contractors and agency staff, and volunteers are responsible for:

- Maintaining an understanding of this policy
- Implementing this policy consistently
- Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet (appendix 3), and ensuring that pupils follow the school's terms on acceptable use (appendices 1 and 2)
- Knowing that the DSL is responsible for the filtering and monitoring systems and processes, and being aware of how to report any incidents of those systems or processes failing by contacting SLT and EPX
- Following the correct procedures by contacting EPX if they need to bypass the filtering and monitoring systems for educational purposes
- Working with the DSL to ensure that any online safety incidents are logged (see appendix 5) and dealt with appropriately in line with this policy
- Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy
- Responding appropriately to all reports and concerns about sexual violence and/or harassment, both online and offline, and maintaining an attitude of 'it could happen here'

This list is not intended to be exhaustive.

3.6 Parents/carers

Parents/carers are expected to:

- Notify a member of staff or the headteacher of any concerns or queries regarding this policy
- Ensure their child has read, understood and agreed to the terms on acceptable use of the school's ICT systems and internet (appendices 1 and 2)

Parents/carers can seek further guidance on keeping children safe online from the following organisations and websites:

- What are the issues? – [UK Safer Internet Centre](#)
- Hot topics – [Childnet](#)
- Parent resource sheet – [Childnet](#)

3.7 Visitors and members of the community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy, when relevant, and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use (appendix 3).

4. Educating pupils about online safety

Pupils will be taught about online safety as part of the curriculum:

All schools have to teach:

- [Relationships education and health education](#) in primary schools
- [Relationships and sex education and health education](#) in secondary schools

During their time at Dudley Port, most pupils will be taught to:

- Understand a range of ways to use technology safely, respectfully, responsibly and securely, including protecting their online identity and privacy
- Recognise inappropriate content, contact and conduct, and know how to report concerns
- To understand how changes in technology affect safety, including new ways to protect their online privacy and identity
- How to report a range of concerns

By the end their time at Dudley Port, most pupils will know:

- Their rights, responsibilities and opportunities online, including that the same expectations of behaviour apply in all contexts, including online
- About online risks, including that any material someone provides to another has the potential to be shared online and the difficulty of removing potentially compromising material placed online
- Not to provide material to others that they would not want shared further and not to share personal material that is sent to them
- What to do and where to get support to report material or manage issues online
- The impact of viewing harmful content
- That specifically sexually explicit material (e.g. pornography) presents a distorted picture of sexual behaviours, can damage the way people see themselves in relation to others, and negatively affect how they behave towards sexual partners
- That sharing and viewing indecent images of children (including those created by children) is a criminal offence that carries severe penalties including jail
- How information and data is generated, collected, shared and used online
- How to identify harmful behaviours online (including bullying, abuse or harassment) and how to report, or find support, if they have been affected by those behaviours
- How people can actively communicate and recognise consent from others, including sexual consent, and how and when consent can be withdrawn (in all contexts, including online)

The safe use of social media and the internet will also be covered in other subjects where relevant.

Where necessary, teaching about safeguarding, including online safety, will be adapted for vulnerable children, victims of abuse and some pupils with SEND.

5. Educating parents/carers about online safety

The school will raise parents' awareness of internet safety in letters or other communications home, and in information via our website and letters home. This policy will also be shared with parents via the school website.

If parents have any queries or concerns in relation to online safety, these should be raised in the first instance with the headteacher and/or the DSL.

Concerns or queries about this policy can be raised with any member of staff or the headteacher.

6. Cyber-bullying

6.1 Definition

Cyber-bullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of 1 person or group by another person or group, where the relationship involves an imbalance of power. (See also the school behaviour policy.)

6.2 Preventing and addressing cyber-bullying

To help prevent cyber-bullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and are encouraged to do so, including where they are a witness rather than the victim.

The school will actively discuss cyber-bullying with pupils, explaining the reasons why it occurs, the forms it may take and what the consequences can be. Staff will discuss cyber-bullying with their tutor groups.

Teaching staff are also encouraged to find opportunities to use aspects of the curriculum to cover cyber-bullying. This includes personal, social, health and economic (PSHE) education, and other subjects where appropriate.

All staff, governors and volunteers (where appropriate) receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training (see section 11 for more detail).

The school also sends information/leaflets on cyber-bullying to parents/carers so they are aware of the signs, how to report it and how they can support children who may be affected.

In relation to a specific incident of cyber-bullying, the school will follow the processes set out in the school behaviour policy. Where illegal, inappropriate or harmful material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The DSL will report the incident and provide the relevant material to the police as soon as is reasonably practicable, if they have reasonable grounds to suspect that possessing that material is illegal. They will also work with external services if it is deemed necessary to do so.

6.3 Examining electronic devices

The headteacher, and any member of staff authorised to do so by the headteacher can carry out a search and confiscate any electronic device that they have reasonable grounds for suspecting:

- Poses a risk to staff or pupils, and/or
- Is identified in the school rules as a banned item for which a search can be carried out, and/or
- Is evidence in relation to an offence

Before a search, if the authorised staff member is satisfied that they have reasonable grounds for suspecting any of the above, they will also:

- Make an assessment of how urgent the search is and consider the risk to other pupils and staff. If the search is not urgent, they will seek advice from the SLT
- Explain to the pupil why they are being searched, how the search will happen, and give them the opportunity to ask questions about it
- Seek the pupil's co-operation

Authorised staff members may examine, and in exceptional circumstances erase, any data or files on an electronic device that they have confiscated where they believe there is a 'good reason' to do so.

When deciding whether there is a 'good reason' to examine data or files on an electronic device, the staff member should reasonably suspect that the device has, or could be used to:

- Cause harm, and/or
- Undermine the safe environment of the school or disrupt teaching, and/or
- Commit an offence

If inappropriate material is found on the device, it is up to Head and Deputy Head to decide on a suitable response. If there are images, data or files on the device that staff reasonably suspect are likely to put a person at risk, they will first consider the appropriate safeguarding response.

When deciding if there is a good reason to erase data or files from a device, staff members will consider if the material may constitute evidence relating to a suspected offence. In these instances, they will not delete the material, and the device will be handed to the police as soon as reasonably practicable. If the material is not suspected to be evidence in relation to an offence, staff members may delete it if:

- They reasonably suspect that its continued existence is likely to cause harm to any person, and/or
- The pupil and/or the parent/carer refuses to delete the material themselves

If a staff member **suspects** a device **may** contain an indecent image of a child (also known as a nude or semi-nude image), they will:

- **Not** view the image
- Confiscate the device and report the incident to the DSL (or equivalent) immediately, who will decide what to do next. The DSL will make the decision in line with the DfE's latest guidance on [screening, searching and confiscation](#) and the UK Council for Internet Safety (UKCIS) guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Any searching of pupils will be carried out in line with:

- The DfE's latest guidance on [searching, screening and confiscation](#)
- UKCIS guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Any complaints about searching for or deleting inappropriate images or files on pupils' electronic devices will be dealt with through the school complaints procedure.

6.4 Artificial intelligence (AI)

Generative artificial intelligence (AI) tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Bard.

Horizon and Dudley Port recognises that AI has many uses to help pupils learn but may also have the potential to be used to bully others. For example, in the form of 'deepfakes', where AI is used to create images, audio or video hoaxes that look real. This includes deepfake pornography: pornographic content created using AI to include someone's likeness.

Horizon and Dudley Port will treat any use of AI to bully pupils in line with our anti bullying policy.

Staff should be aware of the risks of using AI tools whilst they are still being developed and should carry out a risk assessment where new AI tools are being used by Horizon and Dudley Port.

7. Acceptable use of the internet in school

All pupils, parents/carers, staff, volunteers and governors are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the internet (appendices 1 to 3). Visitors will be expected to read and agree to the school's terms on acceptable use if relevant.

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, governors and visitors (where relevant) to ensure they comply with the above and restrict access through filtering systems where appropriate.

More information is set out in the acceptable use agreements in appendices 1 to 3.

8. Pupils using mobile devices in school

Pupils may bring mobile devices into school but are required to hand them to staff before entering the school premises where other students are present.

Any use of mobile devices in school by pupils must be in line with the acceptable use agreement (see appendices 1 and 2).

Any breach of the acceptable use agreement by a pupil may trigger disciplinary action in line with the school behaviour policy, which may result in the confiscation of their device.

9. Staff using work devices outside school

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

- Keeping the device password-protected – strong passwords are at least 8 characters, with a combination of upper and lower-case letters, numbers and special characters (e.g. asterisk or currency symbol)
- Ensuring their hard drive is encrypted – this means if the device is lost or stolen, no one can access the files stored on the hard drive by attaching it to a new device
- Making sure the device locks if left inactive for a period of time
- Not sharing the device among family or friends
- Installing anti-virus and anti-spyware software
- Keeping operating systems up to date by always installing the latest updates

Staff members must not use the device in any way that would violate the school's terms of acceptable use, as set out in appendix 3.

Work devices must be used solely for work activities.

If staff have any concerns over the security of their device, they must seek advice from SLT or EPX.

10. How the school will respond to issues of misuse

Where a pupil misuses the school's ICT systems or internet, we will follow the procedures set out in our policies on behaviour and appropriate ICT use. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

Where a staff member misuses the school's ICT systems or the internet or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the staff disciplinary policy. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents that involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

11. Training

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues, including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, e-bulletins and staff meetings).

By way of this training, all staff will be made aware that:

- Technology is a significant component in many safeguarding and wellbeing issues, and that children are at risk of online abuse
- Children can abuse their peers online through:
 - Abusive, threatening, harassing and misogynistic messages
 - Non-consensual sharing of indecent nude and semi-nude images and/or videos, especially around chat groups
 - Sharing of abusive images and pornography, to those who don't want to receive such content
- Physical abuse, sexual violence and initiation/hazing type violence can all contain an online element

Training will also help staff:

- Develop better awareness to assist in spotting the signs and symptoms of online abuse

- Develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh up the risks
- Develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term

The DSL will undertake child protection and safeguarding training, which will include online safety, at least every 2 years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our child protection and safeguarding policy.

12. Monitoring arrangements

The DSL logs behaviour and safeguarding issues related to online safety on Cpoms. An incident report log can be found in appendix 5.

This policy will be reviewed every year by the Head Teacher. At every review, the policy will be shared with the proprietor. The review (such as the one available [here](#)) will be supported by an annual risk assessment that considers and reflects the risks pupils face online. This is important because technology, and the risks and harms related to it, evolve and change rapidly.

13. Links with other policies

This online safety policy is linked to our:

- Child protection and safeguarding policy
- Behaviour policy
- Staff disciplinary procedures
- Data protection policy and privacy notices
- Complaints procedure
- ICT and internet acceptable use policy

Appendix 1: EYFS and KS1 acceptable use agreement (pupils and parents/carers)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR PUPILS AND PARENTS/CARERS	
Name of pupil:	
<p>When I use the school's ICT systems (like computers) and get onto the internet in school I will:</p> <ul style="list-style-type: none"> • Ask a teacher or adult if I can do so before using them • Only use websites that a teacher or adult has told me or allowed me to use • Tell my teacher immediately if: <ul style="list-style-type: none"> ○ I select a website by mistake ○ I receive messages from people I don't know ○ I find anything that may upset or harm me or my friends • Use school computers for school work only • Be kind to others and not upset or be rude to them • Look after the school ICT equipment and tell a teacher straight away if something is broken or not working properly • Only use the username and password I have been given • Try my hardest to remember my username and password • Never share my password with anyone, including my friends • Never give my personal information (my name, address or telephone numbers) to anyone without the permission of my teacher or parent/carer • Save my work on the school network • Check with my teacher before I print anything • Log off or shut down a computer when I have finished using it <p>I agree that the school will monitor the websites I visit and that there will be consequences if I don't follow the rules.</p>	
Signed (pupil):	Date:
<p>Parent/carer agreement: I agree that my child can use the school's ICT systems and internet when appropriately supervised by a member of school staff. I agree to the conditions set out above for pupils using the school's ICT systems and internet and will make sure my child understands these.</p>	
Signed (parent/carer):	Date:

Appendix 2: KS2, KS3 and KS4 acceptable use agreement (pupils and parents/carers)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR PUPILS AND PARENTS/CARERS	
Name of pupil:	
<p>I will read and follow the rules in the acceptable use agreement policy.</p> <p>When I use the school's ICT systems (like computers) and get onto the internet in school I will:</p> <ul style="list-style-type: none"> • Always use the school's ICT systems and the internet responsibly and for educational purposes only • Only use them when a teacher is present, or with a teacher's permission • Keep my usernames and passwords safe and not share these with others • Keep my private information safe at all times and not give my name, address or telephone number to anyone without the permission of my teacher or parent/carer • Tell a teacher (or sensible adult) immediately if I find any material that might upset, distress or harm me or others • Always log off or shut down a computer when I've finished working on it <p>I will not:</p> <ul style="list-style-type: none"> • Access any inappropriate websites including social networking sites, chat rooms and gaming sites unless my teacher has expressly allowed this as part of a learning activity • Open any attachments in emails, or follow any links in emails, without first checking with a teacher • Use any inappropriate language when communicating online, including in emails • Create, link to or post any material that is pornographic, offensive, obscene or otherwise inappropriate • Log in to the school's network using someone else's details • Arrange to meet anyone offline without first consulting my parent/carer, or without adult supervision <p>If I bring a personal mobile phone or other personal electronic device into school:</p> <ul style="list-style-type: none"> • I will hand it into staff before entering the school premises where other students are present. <p>I agree that the school will monitor the websites I visit and that there will be consequences if I don't follow the rules.</p>	
Signed (pupil):	Date:
<p>Parent/carer's agreement: I agree that my child can use the school's ICT systems and internet when appropriately supervised by a member of school staff. I agree to the conditions set out above for pupils using the school's ICT systems and internet, and for using personal electronic devices in school, and will make sure my child understands these.</p>	
Signed (parent/carer):	Date:

Appendix 3: acceptable use agreement (staff, governors, volunteers and visitors)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR STAFF, GOVERNORS, VOLUNTEERS AND VISITORS

Name of staff member/governor/volunteer/visitor:

When using the school's ICT systems and accessing the internet in school, or outside school on a work device (if applicable), I will not:

- Access, or attempt to access inappropriate material, including but not limited to material of a violent, criminal or pornographic nature (or create, share, link to or send such material)
- Use them in any way that could harm the school's reputation
- Access social networking sites or chat rooms
- Use any improper language when communicating online, including in emails or other messaging services
- Install any unauthorised software, or connect unauthorised hardware or devices to the school's network
- Share my password with others or log in to the school's network using someone else's details
- Take photographs of pupils without checking with teachers first
- Share confidential information about the school, its pupils or staff, or other members of the community
- Access, modify or share data I'm not authorised to access, modify or share
- Promote private businesses, unless that business is directly related to the school

I will only use the school's ICT systems and access the internet in school, or outside school on a work device, for educational purposes or for the purpose of fulfilling the duties of my role.

I agree that the school will monitor the websites I visit and my use of the school's ICT facilities and systems.

I will take all reasonable steps to ensure that work devices are secure and password-protected when using them outside school, and keep all data securely stored in accordance with this policy and the school's data protection policy.

I will let the designated safeguarding lead (DSL), and ICT manager know if a pupil informs me, they have found any material that might upset, distress or harm them or others, and will also do so if I encounter any such material.

I will always use the school's ICT systems and internet responsibly and ensure that pupils in my care do so too.

Signed (staff member/governor/volunteer/visitor):

Appendix 4: online safety training needs – self-audit for staff

ONLINE SAFETY TRAINING NEEDS AUDIT	
Name of staff member/volunteer:	Date:
Question	Yes/No (add comments if necessary)
Do you know the name of the person who has lead responsibility for online safety in school?	
Are you aware of the ways pupils can abuse their peers online?	
Do you know what you must do if a pupil approaches you with a concern or issue?	
Are you familiar with the school's acceptable use agreement for staff, volunteers, governors and visitors?	
Are you familiar with the school's acceptable use agreement for pupils and parents/carers?	
Are you familiar with the filtering and monitoring systems on the school's devices and networks?	
Do you understand your role and responsibilities in relation to filtering and monitoring?	
Do you regularly change your password for accessing the school's ICT systems?	
Are you familiar with the school's approach to tackling cyber-bullying?	
Are there any areas of online safety in which you would like training/further training?	

Appendix 5: online safety incident report log

ONLINE SAFETY INCIDENT LOG				
Date	Where the incident took place	Description of the incident	Action taken	Name and signature of staff member recording the incident

Appendix 6: Online Monitoring Software

Horizon and Dudley Port, through EPX, use an online monitoring software, Securly Filter.

Filter, a cloud-based web filter designed exclusively for schools, helps you keep your students safe with powerful features designed to make schools a safer, happier place for students and IT teams alike. Get visibility into online activity, download or email reports, and block inappropriate sites instantly.

Cloud-based and scalable

Replace bulky and confusing filtering appliances with easy-to-manage and scalable cloud web filtering.

Live activity feed

Know your students' online activity with a visual audit trail including records of sites visited, exact searches and video thumbnails.

Instant site categorisation

Feel confident that innocent eyes are protected with PageScan technology that automatically scans and categorises new sites in a matter of seconds.

Fast and helpful support

Get the answers you need when you need them with dedicated support managers. See for yourself why our customer satisfaction score is 99.8%.

YouTube controls

Easily manage access to YouTube content with greater flexibility (even if you don't use Google Admin).

Time-based policies

Apply filtering rules based on schedules to accommodate after-school programmes and clubs.

Policy map

Move organisational units from one policy to another, create custom groups for set periods of time and allow or deny access — all without needing Google or Azure directories.

Shared reporting

Quickly download, schedule and email reports by organisational unit.

Selective SSL decryption

Virtually eliminate performance issues and security concerns by knowing who's using unmanaged devices and gaining encrypted traffic reporting for those devices.

How Securly is used within Dudley Port

At any time of the day SLT can view all searches made on IT equipment (staff and students) within Dudley Port.

The screenshot shows the Securly Filter web application interface. The browser address bar displays "uk-www.securly.com/app/filter/#/reports". The interface includes a search bar at the top with the placeholder text "Search sites, users, emails, keywords". Below the search bar are filters for "All Categories", "All source types", "All locations", and a checkbox for "Verbose logs". The date range is set to "Last 7 days" (Nov 9, 2024 - Nov 15, 2024). The main table displays search logs with columns: Source, Details, Policy, User, Category, and Date and Time. The table contains several rows of search results, all from "google.com" with various search terms like "stoned drawings sponge bob", "stoned drawings", "house elf dooby graffiti drawings", "dooby graffiti drawings", "dooby graffiti drawings", and "dooby the elf smoking weed". All searches are categorized as "Safe Search" and are associated with the "Draycott Moor Policy" and user "kery@learning.horizoncare.co.uk".

On a daily basis the assistant head gets an email that would highlight any searches within the following areas: Self-harm, Drugs, Intolerance, Pornography, Sexual Content.

The screenshot shows an email activity report from Securly. The email is titled "Activity report from Securly - John Clamp - Outlook - Google Chrome". The report summary includes the following information:

- Report For: /horizonvirtuallschool.co.uk/Schools/Students/Draycott Students, /horizonvirtuallschool.co.uk/Schools/Students/Draycott Students/Lunch Club, /horizonvirtuallschool.co.uk/Schools/Teachers/Draycott Teachers
- Activity type: Blocked
- Policies: All Policies
- Categories: Self harm, Drugs, Intolerance, Pornography, Sexual content
- Activity Filtered: All
- Date Range: Nov 14, 2024 - Nov 14, 2024

The report concludes with the message: "Sorry, there is no activity available for the selected parameters at this time". The email is signed by "Team Securly" and "The Student Safety Company".

On a weekly basis the assistant head receives a summary email of the previous week's searches:
