

Aspire Vision and Values Statement

Our Vision

At Aspire, we work together to consistently support and challenge our young people to become confident and independent individuals, empowering them to thrive in school, society and life.

Every day, our staff create a calm, welcoming environment for our young people where they feel accepted, heard and valued.

To ensure every opportunity is embraced, we engage proactively with families and other stakeholders so they are aware of the learning journeys of our young people and will, therefore, work alongside us to help them succeed.

The outcomes of our curriculum are highly individual. We strive for all young people to leave our school with a range of accredited qualifications and the essential skills to follow their chosen pathways.

Our Values

Compassionate - We listen, care and support with sincerity, empathy and kindness.

Inspiring - We promote a culture which is high in expectation, enabling our young people to achieve their potential.

Dependable – We are reliable and trustworthy, creating safe environments where young people can flourish, and we always keep our word.

Collaborative - We value our partnerships and work together to create innovative and sustainable solutions for young people.
